### Published Book

Mallonee, J. S. 2007. *Timber - A Perfect Life*. New Perceptions Press, Kalispell, MT.

This book is about my 16-year journey with a dog whose life began very badly. It recounts our struggle to overcome her abuse from previous owners and create a productive life based on her remarkable intelligence and resilience. This produced a profound closeness between us and resulted in intense grief when she died. Thus the book has a subject for almost anyone, from animal behavior and intelligence to dog training, social bonds and the process of grieving. It is also available on iTunes.
